

Reserves and Investment Policy

Signed:

Chair: S. Gribbin

CEO: R. Swindells

Date: 16th October 2025

Review date: October 2026

Statement of intent

Collective Vision Trust has developed this policy to protect its operations by creating financial support against an unpredictable environment and to ensure there is sufficient provision for future procurement and cash flow requirements. This policy also aids the framework for future strategic planning and decision-making.

The policy and the establishment of financial ranges are based on an annual risk assessment of internal and external operations, as well the kinds of activities the trust undertakes. The risk to the trust can be summarised as a risk to future funding due to falling pupil rolls, reforms to funding, emergencies, and early teacher retirement or redundancies.

1. Legal framework

This policy has due regard to all relevant legislation and statutory guidance including, but not limited to, the following:

- DfE (2025) 'Academy trust handbook'
- DfE (2025) 'Academy trust reserves: guidance'
- Charity Commission (2023) 'Charity reserves: building resilience'
- Charity Commission (2023) 'Charities and investment matters: a guide for trustees'

This policy operates in conjunction with the following school policies and documents:

- Articles of Association
- Funding Agreement
- Finance Policy
- Conflicts of Interest Policy

2. Roles and responsibilities

The directors and CEO are responsible for:

- Ensuring the trust's reserves are maintained and used only as described in this policy.
- Ensuring that appropriate financial controls and risk management procedures are in place.
- Identifying when reserves need to be drawn on, so that they understand the reasons for this and can identify any corrective actions that need to be taken.
- Identifying any broader, long-term financial challenges that mean the reserves are frequently used.

- Acquiring approval from the Department of Education (DfE) for novel, contentious and/or repercussive investments.
- Authorising the transfer of investment funds to an interest-bearing deposit account.
- Ensure value for money when deciding to invest funds.
- Ensuring that exposure to investment products is tightly controlled so that the security of funds takes precedence over revenue maximisation.
- Ensuring that investment decisions are made in the best interests of the trust.
- Maintaining the trust as a going concern.

The finance committee is responsible for:

- Making financial recommendations to the board of trustees.
- Carrying out any other responsibilities in line with the relevant scheme of delegation.
- Adhering to and implementing this policy.

The chief finance officer (CFO) is responsible for:

- Regularly monitoring the trust's reserves and reporting to the board of trustees or the finance committee accordingly.
- Reporting the explanations for any shortfall or excess in reserves.
- Comparing the amount of reserves held with the minimum and maximum limits set out in this policy.
- Reporting any actions being taken or planned to bring reserves in line with the minimum and maximum limits.
- Transferring investment funds to an interest-bearing deposit account, with the authorisation of the board of trustees.

3. The purpose of reserves

Reserves will have a specific purpose relating to future spending or covering current and future risks. The purposes for holding reserves will be kept transparent.

Reserves will be held to ensure that unexpected financial events do not cause problems in the current year or cash flow issues or generate a deficit.

The purposes for holding reserves may include:

- Managing cashflow and ensuring that the trust can manage fluctuations in income by making sufficient cash available to pay bills and expenditure items as they fall due.
- Setting aside a contingency amount to cover any unforeseen issues or extra costs throughout the year.
- Building, estates, or non-building capital projects and growing savings to enable maintenance, development and improvement of the trust's infrastructure.
- Developing and growing the trust and ensuring the trust's financial health.
- Preparing for future change and uncertainty.

4. Types of reserves

Unrestricted reserves

Unrestricted reserves, which include income funds, grants and donations, will be spent at the discretion of the board of trustees in furtherance of the trust's objectives.

Not all of the trust's unrestricted funds, however, will be readily available for spending due to potential adverse impact on the ability of the trust to deliver its aims. In line with this, the following items will be excluded from reserves:

- Tangible fixed assets used to carry out the trust's activities, e.g. land and buildings
- Programme-related investments held solely to further the trust's purposes.
- Other restricted funds where the donor or grantor has specified the purpose to which the grant or donation must be applied.
- Designated funds set aside to meet essential future spending, e.g. funding a project that could not be met from future income
- Commitments that have not been provided for as a liability in the accounts

Restricted reserves

Restricted reserves, which may include restricted income funds, grants or donations, will be spent or invested in furtherance of the trust's objectives or assets, or spent where the donor has expressed the nature of expenditure.

Restricted reserves may be endowment funds, where the funds or assets are required to be invested or retained for actual use, rather than spent.

Designated reserves

A sum of unrestricted or restricted reserves may be separated and designated a particular purpose, therefore becoming a 'designated reserve', e.g. to purchase a new asset.

Designated reserves are labelled this way for administrative purposes only and can still be spent at the discretion of the board of trustees.

Where a designated reserve has been created, the board of trustees will provide a purpose and a timeframe for spending it.

Pension reserves

The risks surrounding pension liabilities will be taken into account when calculating the minimum and maximum levels of reserves stated in [section 5](#).

The board of trustees will assess the required pension contributions from projected future income without significantly impacting its planned level of activity.

The trust aims to calculate its reserves without the need to set aside a designated reserve to cover pension liability.

5. Managing reserves

The directors will identify why the trust should hold reserves and, having identified its needs, will decide how much should be held to meet them.

In deciding the level of reserves to maintain, the board of trustees will consider:

- The size of the trust.
- The trust's estates strategy.
- The trust's future plans.
- Upcoming risks and opportunities.

The target level of reserves will be informed by:

- The trust's forecasts for levels of income for the current and future years, taking into account the reliability of each source of income and the prospects for developing new income sources.
- The trust's forecasts for expenditure for the current and future years on the basis of planned activity.
- Analysis of any future needs, opportunities, commitments or risks, where future income alone is likely to fall short of the amount of the anticipated costs.
- An assessment, on the best evidence reasonably available, of the likelihood of a shortfall arising which means that reserves are necessary, and the potential consequences for the trust of not being able to make up the shortfall.
- The strategy for an orderly closure in the event of an unplanned shutdown and insolvency

The financial risk to the trust will be balanced alongside our vision to maintain the highest levels of education.

The trust will hold a minimum reserve equivalent of 12 weeks' expenditure.

Reserves will be reviewed and monitored by the CFO on a termly basis to identify any trends in spending and to rectify issues where they arise and to recommend investing of reserves.

Reserves will be reviewed by the directors, who may approve to re-invest reserve funds to generate extra income for the trust's activities.

The movement of funds to and from the reserve budget will be at the discretion of the directors, or the finance committee where delegated authority has been provided.

6. Investment

The trust will aim to manage its cash balances to provide for day-to-day financial management.

Where the trust decides to invest, the investment risk will be properly managed. When considering an investment, the board of trustees will:

- Act within its powers to invest as set out in its articles.
- Manage and track its financial exposure and ensure value for money.
- Exercise care and skill in investment decisions, taking advice as appropriate.
- Ensure that exposure to investment products is tightly controlled so that the security of funds takes precedence over revenue maximisation.
- Ensure that investment decisions are in the best interests of the trust.

The trust will adhere to the Charity Commission's [guidance](#) for trustees about investments, and seek prior approval from the ESFA for investments of any value that are novel, contentious or repercussive.

Where the board of trustees has agreed on an amount to be invested, the CFO will be authorised to transfer the funds to an interest-bearing deposit account.

Invested funds will be reported to the finance committee at the next available meeting, outlining the maturity date and interest rate achieved.

On maturity, the CFO will review the position and re-invest in line with this policy, as and where required.

7. Reporting

The directors will have due regard for the [Academies Accounts Direction](#) guidance at all times.

The directors will disclose in its annual report its policy for building and maintaining reserves and investments, and the following information:

- Where funds are restricted and not available for the general purpose of the trust.
- Any amount designated and the reason why.
- Any amount that can only be realised by disposing of a tangible fixed asset.
- The amount of reserves held after making allowances, the plans in place for the future of these reserves, and the likely expenditure date.
- How the amount of reserves held compares to that which is set out in the Managing reserves section of policy and any steps taken to bring the level of reserves held into line with this.

8. Pooling reserves

The directors will decide to pool the trust's reserves if it deems it appropriate for the purposes of meeting the running costs at any constituent academy within the trust.

9. Monitoring and review

This policy will be reviewed annually by the directors.
